

Think Work Experience; think Renishaw

Step into the world of work and join Renishaw for a work experience week

What you will gain from your week at Renishaw?

- See what it is like to work in an innovative company
- Work with team members to complete and present a project
- Meet and hear from some of our staff about their roles in the business
- Develop problem solving and critical thinking skills
- Learn how to work effectively in a team
- Understand more about Renishaw's early career opportunities
- Use the experience to help you make decisions about next steps/future career plans

Unlike most companies who offer a job shadowing experience, at Renishaw all of our work experience schemes are **project based** rather than traditional shadowing and will help you to develop key employability skills that will help prepare you for the world of work.

Our work experience is for students in years 10 to 13 (or equivalent), local to our headquarters site in Wotton-under-Edge, Gloucestershire and our Miskin manufacturing site near Cardiff in South Wales. **We offer three schemes:**

Engineering

Placements available in Gloucestershire and South Wales

- Design and build a concept model
- Learn about Renishaw's product development process
- Gain a greater understanding of what a career in engineering entails
- Work alongside our engineers

Software

Placements available in Gloucestershire

- Develop your own programme as part of a team
- Operate as part of a software team
- Learn programming and network communications
- Design and test your software to meet the brief

Business and Marketing

Placements available in Gloucestershire

- Explore different aspects of the commercial side of the business, including HR, Finance, Marketing, Legal, Purchasing and Sales
- Work on a business plan for your own team's project

Applications

All applications must be submitted on our website via an online application. For the dates the work experience weeks are running, testimonials from previous attendees and the application forms please scan the QR code or visit: www.renishaw.com/workexperience

We can only offer work experience during fixed weeks and cannot accommodate any placements outside of these dates.

Contact

To join our mailing list and be informed when applications open please visit: www.renishaw.com/educationmailinglist or contact education@renishaw.com
