PRODUCT BULLETIN – PBC1741

Product:	REVO RSP3	Status:	Open
Title:	RSP3 probes with new black aquablast finish	Date:	15 th August 2014

Originator:		Distribution:
Gareth Puntis		Internal ✓ Subsidiaries ✓ OEMs ✓ Distributors ✓ Retrofitters ✓
Reviewer:		
Andy Holding		

Summary:

Renishaw is pleased to announce that the RSP3 range of 3D scanning probes has been given a refreshed black aquablast finish to match that of the RSP2. With the exception of the new black aquablast finish, there have been no fundamental changes to the design of the probe.

The new black RSP3 range replaces the current silver range which will now be made obsolete. In line with normal obsolescence practise, Renishaw will continue to support existing RSP3 users with RBE cover. Legacy silver RSP3s returned for RBE will be replaced like-for-like with silver probes while stocks last. Once stocks are exhausted, replacements will be made with a new black probe.

Further details:

In addition to the refreshed black aquablast finish, new RSP3 kits will include the new RSH3 stylus holder and PA25-RSH3 port insert.

Please see PBC1743 for further details on the RSH3 range and PA25-RSH3 port insert.

The new black RSP3-3 kits with RSH3-3 stylus holders replace the current silver probes found in the 'REVO combi kit' (A-3060-0001) and the 'REVO standard kits' (A-3060-0002 and A-3060-0008) from mid-August 2014.

Part numbers:

There is no change in list prices. However, the new black RSP3s with RSH3 stylus holders have new part numbers.

Product description	Part number
RSP3-1 probe kit (includes RSP3-1 probe, 1 off RSH3-1 stylus holder and styli)	A-3060-0331
RSP3-2 probe kit (includes RSP3-2 probe, 1 off RSH3-2 stylus holder and styli)	A-3060-0332
RSP3-3 probe kit (includes RSP3-3 probe, 1 off RSH3-3 stylus holder and styli)	A-3060-0333
RSP3-4 probe kit (includes RSP3-4 probe, 1 off RSH3-4 stylus holder and styli)	A-3060-0334
